COMPOSITE FENCING

Transform gardens with stylish,
low-maintenance composite fencing

TRANSFORM YOUR CUSTOMERS' GARDENS

The unique finish of composite fencing will add beauty and complement a gardens natural surroundings. The incredibly light fencing panels are incredibly strong, making general handling and transportation easy.

Environmentally friendly

Wood-Grain is manufactured from 75% recycled materials. In using Wood-Grain you can be assured that you are protecting the world's natural resources and helping the environment.

Looks and feels like wood

Composite fencing's unique finish will add beauty and complement gardens for years to come. Unlike most traditional fencing, Wood-Grain's dual face means you can also share the cost with neighbours.

Use with existing posts

Simply remove the old wooden panels from the concrete posts and then slot the composite fencing gravel boards in place. In an instant you have a maintenance-free fence, which not only looks good, but is easy to install and never needs treating.

£674.86*

10 year maintenance cost for 10 No 6'x6' timber panels

£0.00

10 year maintenance cost for 10 No 6'x6' composite panels

SAVE MONEY

Composite fencing will work out much cheaper over time compared to timber panels, which would need to be maintained every couple of years. Compare the facts!

Note: Although composite fencing does not require any maintenance to preserve the life span of the fence, it will weather over time and blend into the surrounding area as a timber fence does.

Composite fencing has strength

In independent testing, Wood-Grain proved that it has a much greater tensile strength than concrete posts, as the combined weight of 56 stones demonstrates! It will even flex in strong winds.

Incredibly light

At around 5 kgs, composite fencing is a pleasure to work with. It is incredibly light and strong, making general handling and transportation easy. The health and safety risks ever present with concrete fence posts are eliminated.

Replace rotten old panels

Simply remove the old panels from the concrete posts and then slot the composite fencing gravel boards in place. In an instant you have a maintenance-free fence which not only looks good but is easy to install and never needs treating.

* Figures based on a timber panel which would need treating a minimum of four times over a 10-year period, using 14 tins of preserver @ £22.49 each, 50 hours of your customers' time at minimum wage of £7.20 (From 01/04/16).
